Kerryn Fleming

Occupational Therapist

Kerryn has over 16 years experience as a Paediatric Occupational Therapist, working in both non-government and private practice roles. Throughout her career, she has supported children with a broad range of developmental needs across home, clinic, educational and community settings.

Building strong relationships with children and families is integral to Kerryn's approach. She values collaboration with families and the client's broader support team to understand each child's strengths, support needs and what matters most to them. Kerryn meets every child wherever they are at, working from a neuro-affirming, strengths-based approach. She loves finding creative ways to incorporate individual interests into therapy sessions and will always go the extra mile to make learning fun!

As a mum of 2 young children, she appreciates the joys and challenges of raising a family and recognises that the best supports are those that are meaningful and practical for each individual family. She understands that it is such a privilege to walk alongside a family in their journey, approaching every interaction with empathy, compassion and curiosity.

With experience as a feeding therapist and completing further training in this area, Kerryn has a particular interest in supporting children's nutritional wellbeing and making mealtimes a positive experience for both children and families.

Outside of work, Kerryn is kept busy with family life, so you'll usually find her with a coffee in hand! She loves nothing more than a walk along the beach and discovering new coffee spots.
